MOONLIGHT collection

Uniqueness, exclusivity and sophistication are the main features of MOONLIGHT collection which takes inspiration from the soft moonbeams.

Tasmanian curly Eucalyptus wood has been chosen as the main character of the collection, its figured curls enhance the geometric shapes of the furniture. Bleached and stained, it is utilized in a light grey color. Precious fabrics and leathers have been skillfully crafted creating original quilted patterns that bring out the sculptural shapes of the elements and their details.

Finally, details in grey satin nickel stainless steel frame the four areas of the collection: living room, dining room, bedroom and office.

The living area is characterized by upholstered sofa elements offering a choice of various configurations that allow great compositional versatility.

A dining area welcomes a table with its sculptural base and the Tasmanian curly Eucalyptus top skillfully matched, accompanied by upholstered quilted dining chairs.

Bedroom's most important element is the solid wood bed upholstered in fine quilted leather and embroidered Giorgio Collection logo.

Ultimately the presidential office includes both top management and home desks, office chairs and bookcases.

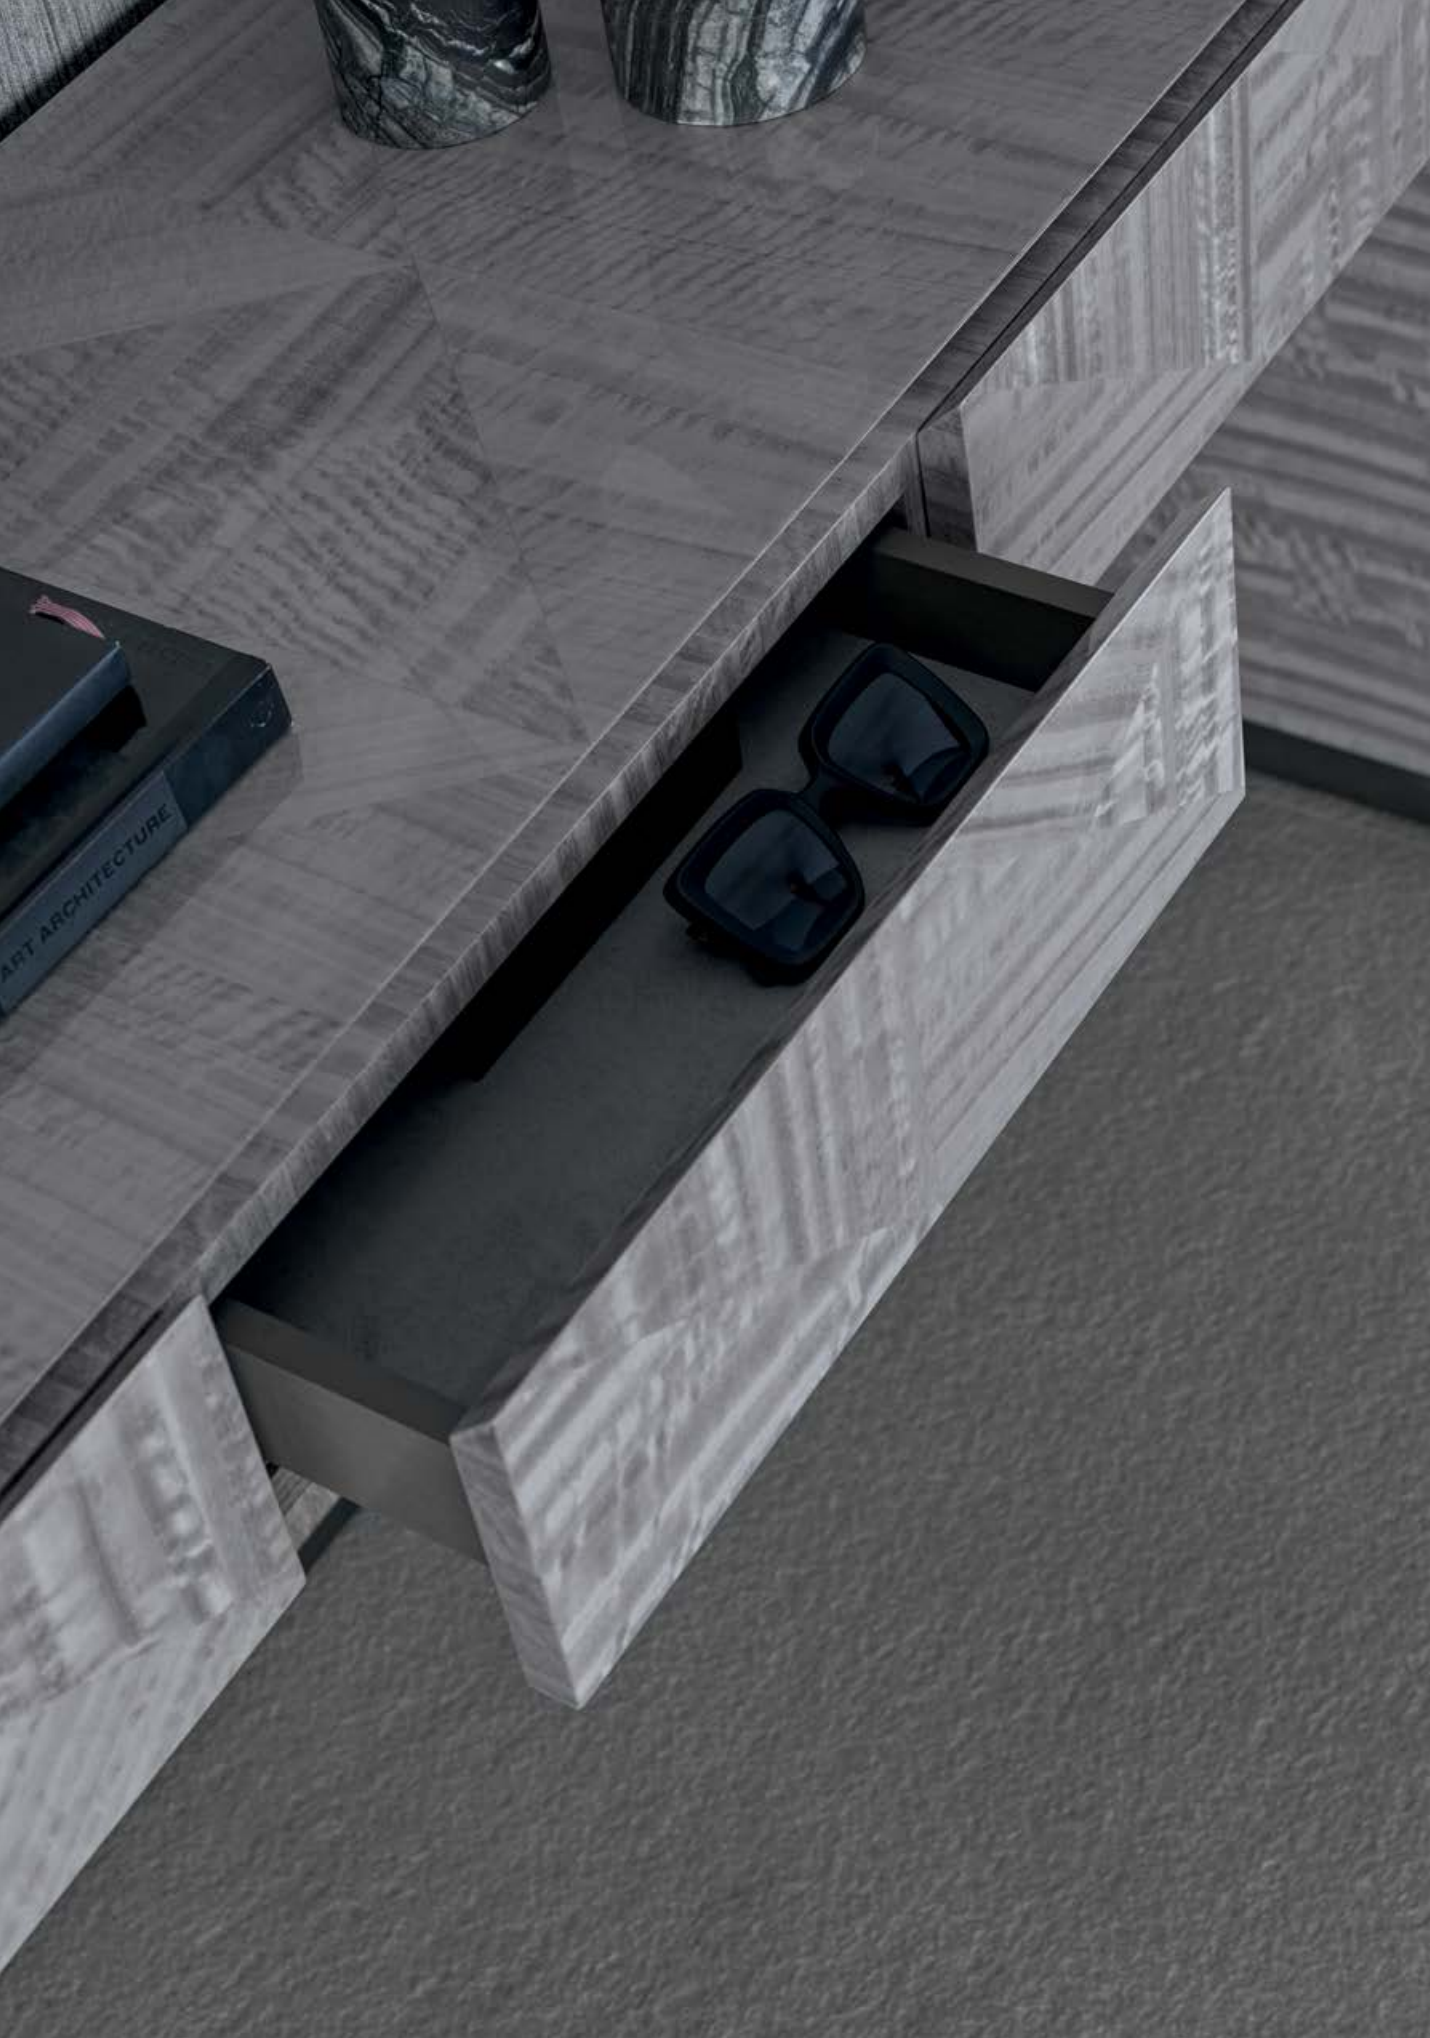

MOONLIGHT offers a refined total look with over 100 pieces, including precious complements and accessories as lamps, rugs, vases, bedspreads, wallpapers and paintings.

	<p>Nadezhda Olefir x GC</p> <p>Nadezhda Olefir was born in Russia in 1977. She has been gravitated toward art creation since childhood. It all started as a hobby interest that led the artist to attend various sculpture and drawing classes and later on to the professional education in art and crafts. Nadezhda is the author of a unique technology for creating modern interior works, the basis of which is a collaboration between jewelry and stained-glass art. Her works are created outside the standard painting techniques. Design paintings and interior panels animalistic plots come true due the symbiosis of new techniques, methods, materials and textures: mirror stained glasses, colored glass fusing, bas-reliefs, texturizing, inlays and coatings with gold and silver. The artist creations reflect thoughts and emotions with shimmering crystals, volumetric shapes, contrasting colors and harmonious compositions. Nadezhda founded her own premium art gallery and a school named “Art of Glitter”, where more than 3000 students attend every year. Nadezhda’s works were presented on the prestigious International and Russian exhibitions, such as Design Décor, Luxury HITS, Batimat, ArchMoscow, ISaloni WorldWide and the artist is a multiple winner of various awards as the "Artist of the Year" according to such magazines as Elite magazine and FBjournal.</p>
