LUXURY EXPERIENCE

MADE IN ITALY

A close-up, high-angle photograph of a wooden slat, likely part of an outdoor furniture component. The slat is made of light-colored wood with a visible grain. It is held in place by a silver-colored metal fastener that has a semi-circular, hook-like shape. The slat is positioned over a grey, cylindrical metal tube. The background is a plain, light-colored surface.

WHERE NATURE BECOMES LUXURY

SAHARA is the new outdoor universe where Italian craftsmanship meets the poetry of natural elements, entirely **MADE IN ITALY**, the collection translates the spirit of modern luxury into an open-air experience. Inspired by Saharan landscapes and the timeless warmth of natural materials, this collection blends natural solid Burma Teak wood, satined stainless steel and hand-crafted concrete to create an atmosphere of luxury, sophistication, and timeless beauty.

At the heart of SAHARA collection lies natural solid Burma Teak wood, chosen for its rare quality and warm veins, it is crafted into continuous slats, precisely shaped along the edges to enhance wooden natural grain, emphasizing its depth of color. The natural wood is seamlessly integrated into a satined stainless steel tubular structure, which creates an elegant visual contrast between the two materials, achieving a perfect balance between craftsmanship and engineering. Finally, hand-crafted concrete is shaped into monolithic tables, raw yet elegant it creates sculptural forms that blend with the outdoor environment.

The collection is conceived as a complete outdoor system, expressed through a refined selection of modular sofas, chairs, tables, sunbeds, chaise longues, carpets and lightings. The upholstery selected for SAHARA has been developed for open-air performance, it resists water, chlorine, salt, sunlight and time, preserving its softness, color and luxurious feel season after season. Every detail has been curated with meticulous attention, ensuring that the collection remains as beautiful and functional as the day it was created. SAHARA is not simply an outdoor collection, it is a new philosophy of living with nature.
