TRÉSOR collection

Trésor harmoniously fits into the Giorgio collection's production landscape: defined by quality, sophistication and craftsmanship. Curved lines are the soul of this collection, skillfully intertwining in both upholstered pieces and complements, they create a welcoming and exclusive atmosphere. It is an ode to timeless elegance and refined details.

At the heart of the collection, we find a family of sofas with an embracing and inviting appearance, consisting of upholstered modules that blend together, offering an infinite variety of compositions. Fixed and modular elements allow extreme customization. The ottomans, with or without integrated marble tops, introduce functionality and dynamism, allowing for open configurations and welcoming guests with style and practicality. Completing the range of upholstered pieces is an oversized occasional chair and a swivel armchair with a backrest in combination of bronzed satined stainless steel and upholstery. Both the sofas and armchairs are enriched by a quilt with a sinuous and elegant design and stainless steel details with a distinctive bronzed satined color that illuminates the masterpieces with precious reflections. The amber color takes center stage, contrasting with the silvery white of the fabrics and leathers to create an eclectic and modern space. The hand hammered fused glass coffee tables, with their suggestive wavy effect, stand out as luminous sculptures in the center of the living room, capturing the gaze with their design and materiality. Finally, the rugs, designed to harmonize with the sinuous shape of the sofas, echo the quilt design and upholstery colors, like waves stirred by the wind.

Trésor Collection is an invitation to immerse yourself in a world of luxury and comfort, where every detail enhances the essence of your home.

Nadezhda Olefir x GC

Nadezhda Olefir was born in Russia in 1977. She has been gravitated toward art creation since childhood. It all started as a hobby interest that led the artist to attend various sculpture and drawing classes and later on to the professional education in art and crafts. Nadezhda is the author of a unique technology for creating modern interior works, the basis of which is a collaboration between jewelry and stained-glass art. Her works are created outside the standard painting techniques. Design paintings and interior panels animalistic plots come true due the symbiosis of new techniques, methods, materials and textures: mirror stained glasses, colored glass fusing, bas-reliefs, texturizing, inlays and coatings with gold and silver. The artist creations reflect thoughts and emotions with shimmering crystals, volumetric shapes, contrasting colors and harmonious compositions. Nadezhda founded her own premium art gallery and a school named "Art of Glitter", where more than 3000 students attend every year. Nadezhda's works were presented on the prestigious International and Russian exhibitions, such as Design Décor, Luxury HITS, Batimat, ArchMoscow, ISaloni WorldWide and the artist is a multiple winner of various awards as the "Artist of the Year" according to such magazines as Elite magazine and FBjournal.
